

Cullinan Therapeutics to Host Virtual Analyst and Investor Event to Showcase Zipalertinib Plus Chemotherapy Phase 3 REZILIENT3 Data Presented at the IASLC 2026 World Conference on Lung Cancer

September 10, 2026

Results from the planned interim analysis of the Phase 3 REZILIENT3 trial of zipalertinib plus chemotherapy in first-line EGFR exon 20 insertion mutation NSCLC to be presented in Presidential Symposium 2 on Sunday, September 13, 2026

Company to host a virtual event on Monday, September 14, 2026, at 8:00 a.m. ET

CAMBRIDGE, Mass., Sept. 10, 2026 (GLOBE NEWSWIRE) -- [Cullinan Therapeutics, Inc.](https://cullinantx.com) (Nasdaq: CGEM), a clinical-stage biopharmaceutical company accelerating potential first- or best-in-class, disease-modifying T cell engagers in autoimmune diseases and cancer, today announced that it will host a virtual event for analysts and institutional investors on Monday, September 14, 2026, at 8:00 a.m. ET to discuss the results from the planned interim analysis of the Phase 3 REZILIENT3 trial presented in Presidential Symposium 2 at the International Association for the Study of Lung Cancer's (IASLC) 2026 World Conference on Lung Cancer (WCLC), being held September 12-15, 2026 in Seoul, South Korea.

As previously announced, the Phase 3 REZILIENT3 trial of zipalertinib plus chemotherapy in the first-line treatment of patients with epidermal growth factor receptor (EGFR) exon 20 insertion mutation-positive non-small cell lung cancer (NSCLC) met its primary endpoint of progression-free survival at a planned interim analysis.

Virtual Event Details

Cullinan Therapeutics will host a virtual event for analysts and institutional investors on Monday, September 14, 2026, at 8:00 a.m. ET, following the Presidential Symposium presentation. Participants from Cullinan Therapeutics include Nadim Ahmed, Chief Executive Officer, Jeffrey Jones, MD, MBA, Chief Medical Officer.

A live webcast will be available via the events page of Cullinan Therapeutics' investor relations website at <https://investors.cullinantx.com/events>. A replay will be archived on the website following the event.

About Cullinan Therapeutics

[Cullinan Therapeutics, Inc.](https://cullinantx.com) (Nasdaq: CGEM) is a biopharmaceutical company developing potential first- or best-in-class, disease-modifying T cell engagers for autoimmune diseases and cancer. Cullinan pursues promising therapeutic targets while leveraging core expertise in T cell engagers, which are established in oncology and are now advancing into autoimmune diseases. With a clinical-stage pipeline built on a rigorous scientific approach and purposeful innovation, Cullinan is advancing its mission to deliver new standards of care for patients.
