CAMBRIDGE, Mass., April 16, 2024 (GLOBE NEWSWIRE) -- [Cullinan Therapeutics, Inc. \(formerly Cullinan Oncology, Inc.\)](#) (Nasdaq: CGEM; "Cullinan"), a biopharmaceutical company focused on developing modality-agnostic targeted therapies, today announced that it has entered into a stock purchase agreement with certain institutional and accredited investors for a private placement of approximately \$274.0 million of shares of its common stock at a price of \$19.00 per share and, in lieu of common stock to certain investors, \$6.0 million of pre-funded warrants to purchase shares of its common stock at a price of \$18.999 per pre-funded warrant. The exercise price of each pre-funded warrant will equal \$0.001 per share. Cullinan expects to receive gross proceeds from the offering of approximately \$280.0 million, before deducting placement agent fees and other offering expenses.

The private placement consisted of participation from new and existing investors, including Adage Capital Partners LP, Avidity Partners, Blue Owl Healthcare Opportunities, Boxer Capital, Braidwell LP, BVF Partners L.P., Foresite Capital Management, an affiliate of Deerfield Management, Invus, OrbiMed, Paradigm BioCapital, Rock Springs Capital, RTW Investments, Surveyor Capital (a Citadel company) and Venrock Healthcare Capital Partners.

The private placement is expected to close on or about April 18, 2024, subject to the satisfaction of customary closing conditions.

Proceeds from the financing are expected to be used to support Cullinan's ongoing research and development activities, the expansion of its CD19xCD3 T cell engager clinical program for autoimmune diseases, as well as general corporate purposes and working capital.

Morgan Stanley, TD Cowen, and Leerink Partners acted as lead placement agents for the private placement. Stifel acted as a placement agent and Wedbush & Co., LLC and BTIG acted as co-placement agents for the private placement.

The proceeds from the private placement, combined with current cash, cash equivalents, short-term investments and interest receivable, are expected to fund Cullinan's current operating plan into 2028.

The securities to be sold in the private placement have not been registered under the Securities Act of 1933, as amended (the "Securities Act"), or any state or other applicable jurisdictions' securities laws, and may not be offered or sold in the United States absent registration or an applicable exemption from the registration requirements of the Securities Act and applicable state or other jurisdictions' securities laws. Cullinan has agreed to file a registration statement with the United States Securities and Exchange Commission (the "SEC") registering the resale of the shares of common stock issued in the private placement and the shares of common stock issuable upon the exercise of the pre-funded warrants issued in the private placement, no later than 30 days after the closing of the private placement.

This press release shall not constitute an offer to sell or the solicitation of an offer to buy these securities, nor shall there be any offer, solicitation or sale of these securities in any jurisdiction in which such offer, solicitation or sale would be unlawful. Any offering of the securities under the resale registration statement will only be made by means of a prospectus.

### **About Cullinan Therapeutics**

[Cullinan Therapeutics, Inc.](#) (Nasdaq: CGEM) is a biopharmaceutical company dedicated to creating new standards of care for patients. We have strategically built a diversified portfolio of clinical-stage assets that inhibit key drivers of disease or harness the immune system to eliminate diseased cells in both oncology and autoimmune diseases. Our portfolio encompasses a wide range of modalities, each with the potential to be best and/or first in class. Anchored in a deep understanding of oncology, immunology, and translational medicine, we create differentiated ideas, identify the most appropriate targets, and select the optimal modality to develop transformative therapeutics across a wide variety of cancer and autoimmune indications. We push conventional boundaries from candidate selection to differentiated therapeutic, applying rigorous go/no go criteria at each stage of development to fast-track only the most promising molecules to the clinic and, ultimately, commercialization. With deep scientific expertise, our teams exercise creativity and urgency to deliver on our promise to bring new therapeutic solutions to patients.
